

**Top-Tier Resource Allocation:** Efficiency, Inventory Control Solutions & Recruitment for Government & Industry

## Capability Statement

**Guardrail Mining, Inc.** provides top-tier logistics, resource allocation, efficiency, and inventory control solutions with a focus on maintaining safe, consistent, maximum uptime, and performance.

We specialize in recruiting, qualifying, and training top-tier field techs and hard-working specialists for data center operations and construction support with publicly traded companies and family offices.

### Joe Angello – CEO

30-years leadership in international trade, distribution, logistics, warehousing, and sales. Joe is dedicated to excellence, efficiency, and integrity across many industries.

## Services

- **Operations & Management:** Our expertise includes best-in-class logistics, electrical, resource allocation, efficiency, and inventory control.
- **Consulting & Project Management:** We offer comprehensive advisory and expedited services across all stages of computing projects including design, project management, energy and grid, construction, and installation.
- **Build and/or Support HPC Data Centers:** From site selection, networking to energization, we help clients exceed their goals and navigate the complexities of data industry construction.
- **Repair & Maintenance:** Our on-site teams troubleshoot and fix computer hardware ensuring optimal performance with elite supervision and technicians.
- **Skilled Recruiting & Contract Staffing Services:** Exceptional labor teams, technicians, managed by our motivated on-site supervisors.

## Past Performance

### Recent, but not limited to:

- 24/7 operations at a 50MW Data Center.
- Deployed 4 teams simultaneously coordinating efforts between 3 states.
- Supporting a 50,000-unit Bitcoin mining operation, enhancing efficiency, and increasing uptime.
- Advised on airflow optimization and load distribution for a 20,000-unit private facility.
- Recruiting and training teams to adapt quickly and efficiently during countless ramp ups with Data Center companies.

## Differentiators

- **Expert Team:** Led by seasoned professionals and veterans with extensive experience in international trade, logistics, and computing industries.
- **Certifications:** Multi-disciplined certified technicians for computer repair, CCNA, and networking operations. All are OSHA certified in at least one area.
- **Innovative Solutions:** Cutting-edge approaches to computing operations and maintenance.
- **Proven Experience:** Extensive past performance in managing large-scale industrial projects under expert leadership and best-in-class managerial excellence.

GUARDRAIL

## Dossier: Department of Defense Capability Statement

### Capability Statement

We provide experienced consultation on Department of Defense Senior Executive matters (TS/SCI security clearance) pertaining to Air Force operational capabilities across the entire spectrum of warfare with special emphasis on nuclear forces, nuclear command, control and communications, conventional mobility airlift and special operations forces.

### Services

Global 24/7/365 in-person and/or virtual DoD senior executive consultation services

**(TS/SCI security clearance) specializing in:**

- Execution of air component, conventional and nuclear operations (prior Airborne Emergency Action Officer, Director of Mobility Forces certified)
- Theater strategic war planning across functional and geographic combatant commands (TRANSCOM, STRATCOM, INDOPACOM)
- Joint and service-specific Planning, Programming, Budgeting, & Execution (PPBE) cycles.

### Past Performance

Senior executive consultation services rooted in 34 years uniformed experience (including combat operations) across the globe.

**Executive experiences include:**

- Headquarters (HQ) USAF Deputy Chief of Staff, Operations
- HQ USAF Deputy Chief of Staff for Strategic Deterrence and Nuclear Integration
- HQ Pacific Air Force--Operations
- 20th Air Force (Air Force Global Strike Command) staff
- Wing (and below) in the Active, Reserve, and civilian components of the Total Air Force.

### Differentiators

**Deep DoD Experience:** Capable of senior executive consultations on a wide and deep range of USAF operations and staff experience at the tactical, operational, and strategic level of warfare (irregular thru nuclear warfare).
